Profile

A versatile and innovative front-end developer with a keen eye for user experience design, I bring a blend of technical expertise and creative flair to digital projects. My passion lies in crafting intuitive and visually appealing interfaces that seamlessly blend form and function. With a strong foundation in HTML5, CSS3, and JavaScript, coupled with experience in modern front-end frameworks like React and vue js, I have delivered responsive and scalable web solutions that delight users.

In the realm of UI/UX design, I excel at translating complex ideas into user-friendly designs through wireframing, prototyping, and user testing methodologies. Proficient in design tools such as Adobe XD and Figma, I strive to create meaningful and impactful user experiences that elevate brands and drive engagement.

Professional Experience

National Service

2022 – present | Accra, Ghana

Somuah Information System

As a national servicepersonnel, I've had the honor of assisting in the management of e-commerce websites, ensuring seamless functionality and an unparalleled user experience. From optimizing product listings to streamlining checkout processes, I've been instrumental in driving online sales and customer satisfaction.

Internship

2020 | Assin Fosu, Ghana

St. Francis Xavier Hospital

During my tenure as an IT administrative management intern, I've been fortunate to gain hands-on experience in various facets of IT operations. From assisting with network administration tasks to supporting software deployments and troubleshooting hardware issues, I've had the chance to immerse myself in the diverse and ever-evolving landscape of IT management.

Education

BSC. Information Technology Management
